Mr. Hobbs,

Thank you for taking the time to explain cost segregation to me and my partner. Our accountant said this was something we needed to do and I am glad we listened to her. The results of your study was beyond what we expected and what you told us. Had we known we could get the taxes we paid the IRS for the last 3 years back we'd have done this sooner!

Your engineer did a good job not interfering with our customers or being intrusive in any way while he was here. He also answered some lingering questions we had that made us feel all the better.

If anybody that owns property wants to get a tax refund I suggest they give you a call; they'll be glad they did. By the way, Brian tells me you have already set up his site survey. Thanks for getting to him so quickly.

Thank you,

Mark Savage, Managing Member
